Flow Chart for Buying with the Trend

Recognize the Trade:
Shochastics below 20 and %K crosses over %D with
No False Bar
XTL is blue
Fibonacci Retracement does not exceed 61.8%

Draw Trend Channels for Entry
(Usually from Pivot Low to Pivot High)
If Pearson's R is > .90 use channels
for entry, if < .90 use 6/4 MA Channels

Optional:
DrawEllipsefrom Pivot Low toPivotHigh
to verifyretracement iscomplete

Wait for first bar that crosses
above Trend Channel or MA.
Buy Level is at that bars High.

Calculate Price Projection
Draw MOB from previous Pivot High

Reward/Risk:
Once entry bar is identified calculate
Reward/Risk.
If the Reward/Risk is > 1.6 trade can
be taken once Buy Level is reached

Flow Chart for Selling with the Trend

Recognize the Trade:
Shochastics above 80 and %D crosses over %K with
No False Bar
XTL is Red
Fibonacci Retracement does not exceed 61.8%

Draw Trend Channels for Entry
(Usually from Pivot High to PivotLow)
If Pearson's R is > .90 use channels
for entry, if < .90 use 6/4 MA Channels

Optional:
DrawEllipsefrom Pivot HightoPivotLow
to verifyretracement iscomplete

Wait for first bar that crosses
below Trend Channel or MA.
Sell Level is at that bars Low.

Calculate Price Projection
Draw MOB from previous Pivot Low

Reward/Risk:
Once entry bar is identified calculate
Reward/Risk.
If the Reward/Risk is > 1.6 trade can
be taken once Sell Level is reached
